

# TRANSPORTATION SERVICES FOR GUESTS

## ***What We Offer***

Through the generous offering of the Regional Transportation Program (RTP), Clayton's House is able to offer patients and their care partners transportation from Clayton's House to their treatment centers, to and from the Dempsey Center, as well as to/from the Portland bus and rail station, for those who wish to take public transportation to Portland.

## ***How It Works***

The referring provider will indicate the need for transportation services in the notes section of the referral. Upon receipt of referral, the House Manager will review the process with the patient and care partner during their registration call. All requests for transportation are scheduled by the House Manager and must be made as least 2 days in advance and not more than 2 weeks prior.

### ***RTP will provide transportation to the following locations:***

Maine Medical Center  
22 Bramhall Street, Portland
